

Satellite Family Child Care System

## SATELLITE FAMILY CHILD CARE PROGRAM TOUR

JULY 31, 2021

9 A.M.-12 P.M.

### THE MAP

- Google map includes all 12 family child care providers participating in the tour.
- Spanish-speaking programs = blue pin
- English-Speaking = pink pin
- Bi-Lingual = purple pin.
- QR code goes to the online Google map of provider addresses. Hover your phone camera over this QR code and it will pull up a map to begin the tour.

**Families of young children are invited to tour open Satellite Family Child Care Program sites. This unique opportunity allows you to view and compare multiple, high-quality programs within Satellite's system of City of Madison accredited family child care programs.**

The "star" icon is the programs that are already accredited through the City of Madison.

The "book" icon is the programs that are currently receiving accreditation/accreditation is in process.

# VISIT THESE PARTICIPATING PROGRAMS

JULY 31, 2021 | 9 A.M.-12 P.M.

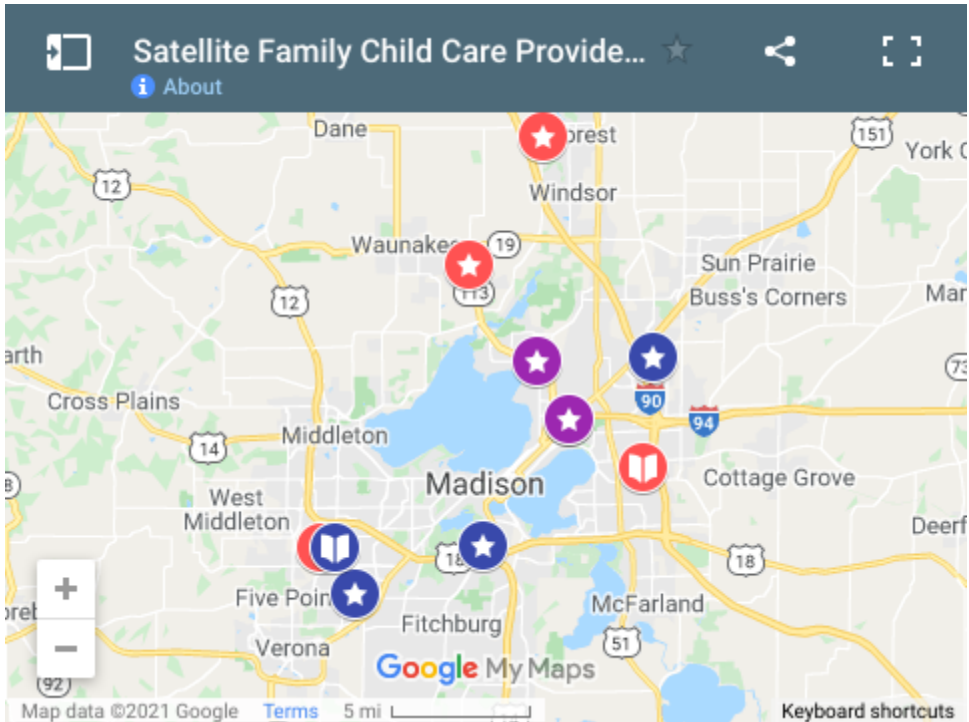

Satellite's 55 family child care programs make a commitment to become City Accredited and offer quality care and education at higher standards than State Licensing or County Certification requirements.

The accreditation process promotes the optimal development of the child physically, intellectually, verbally, creatively, and socially through professional guidance and discipline.

Each family child care program is unique—tour multiple programs during our open house event.

Language spoken in program: English*

Wee Care Family Childcare believes children learn best when they feel safe, nurtured, and loved. I provide a home-like learning environment where children can explore based upon their own interests and skill levels by providing a wealth of natural materials that are fun and interesting. I love when children are running outside barefoot, painting in the breeze, and exploring water, shells, and cups. I provide a lot of nature, math, and science in my program. My childcare environment is a must-see!!

I provide a safe home for your child to have fun, learn and grow. I have 30 years of experience working with children. I provide healthy meals and snacks based upon the USDA guidelines for nutrition. Your child will master skills, make friends, be creative, and be ready to enter school in my program. We spend much of our time outdoors, even napping and eating. Children are happy when they can run, climb, swing, and jumping, being outdoors is healthy for children. Screen-free environment.

SCHEDULES**

*Working towards City of Madison accreditation for 2 years  
Language spoken in program: English*

Waddle-In Family Child Care strongly believes in a child-led play-based learning model. Through observation and recording I know the interests and skill level of all children in care and put out toys, activities, games, sensory items, and art items every day so children can use their interests in their play and with intrinsic motivation build on the knowledge and skills they already have. In this multi-age setting children have opportunities every day to play on their own or with others as they investigate, problem solve and play through their day.

At Waddle-In Family Child Care children are allowed to feel their big feelings, problem solves on their own, investigate and strategize while being part of a multi-age play-based group. We work together to plan activities and prepare a nutritious menu the children are part of planning and preparing. There are many opportunities for families to come together through the year outside of child care to give the adults time to make friendships with each other and witness the relationship their children have with Brandee (provider) and the other children in care.

At Waddle-In Family Child Care children feel loved and respected as they are given opportunities to investigate and build their skills and knowledge through play. Families are invited to come together for food and socialization at least four times a year to get to know one another and foster friendships in child care. (Social family activities will resume when considered safe)

**OPENINGS: FALL 2021 FOR FULL-TIME SCHEDULES**

*Maintaining City of Madison accreditation for 2 years*

*Language spoken in program: English*

We believe in providing a safe environment in which children can explore the world around them. Where a child's physical, emotional, and cognitive skills can develop in a loving atmosphere. Where through play and natural curiosity they are encouraged to express themselves, their ideas, and their creativity through their own initiated experiences. Where they will be challenged to do their own problem solving, self-regulate, and gain confidence in who they are.

We also believe in challenging children to be themselves and to be fiercely independent. This means that although we will often be on the floor playing alongside them, or leading them in a game of soccer, there will also be moments where we step back and watch them problem solve, resolve conflict and experience life all on their own. This may look like learning to get on the swing all by themselves through trial and error or watching the cause and effect of playing with a developmental toy by themselves.

Cuddle Bugs Infant Care has a warm inviting environment. We hope that the children feel at home and loved. We have been fortunate to have created a close community of families who have become friends, and support each other, and even get together outside of Cuddle Bugs.

Communication is so important to us and with the use of Bright Wheel the parents stay very well informed. We feel it is such a compliment for parents to trust us with their child and we truly enjoy sharing in their developmental goals and fun in learning about the world around them.

Satellite Family Child Care Program Tour

**NURTURING DEVELOPMENT**  
**MICHELLE SEAY**

*5941 State Rd #113*  
*Waunakee, WI*

**AGES: 8 WEEKS - 3 YEARS**

**HOURS: MONDAY-FRIDAY 7:30 AM - 5:00 PM**

**OPENINGS: AVAILABLE NOW FOR FULL TIME**

*Maintaining City of Madison accreditation for 19 years*

*Language spoken in program: English*

Nurturing Development is a Montessori-based Children's House. A county-certified and City of Madison accredited program designed specifically for the care and needs of infants and toddlers. Nurturing Development is intentionally designed to care for three children of like ages from 6 weeks to three years. Any vacancies will be filled with a child of like age or within 3-5 months age of other children whenever possible.

Our philosophy of care is to nurture the natural development of each individual child with RESPECT. Respect for all people, especially children is of the utmost importance. I strive to create an environment where we recognize the uniqueness of each child as an individual. I have adopted the basic trust in the child to be an initiator, explorer, and self-learner. My role is to provide a high-quality prepared environment that is comfortable, physically safe, and cognitively challenging. I am committed to providing quality care where each child has a feeling of competence, autonomy, and a positive self-concept. My program is based on the works of Maria Montessori and Magda Gerber.

My program is unique as I only care for 3 like age children from infancy to age 3 or so when they are fully prepared to thrive in any high-quality preschool program. I actually opened my business to specifically serve infants through their toddlerhood. I feel strongly about our youngest children having the ability to be nurtured and develop in their way and their time naturally. The outdoors is a very big part of my program and pride myself on creating and caring for an enriching environment outdoors that is stimulating, thought-provoking, and engaging to the very young. A place that might feel comfortable, challenging, and sometimes magical to the child. Learning by doing and just being. My focus is on giving each child the very best beginning they could possibly have and being a supportive partner to their families.

Anthony's Bilingual Preschool believes that guiding, motivating, and encouraging children is one of the most challenging responsibilities for educators. Instilling positive behavior in children is an absolute necessity for everyone working in early childhood programs. A child needs to learn positive behavior for him or her to have a strong foundation in his or her learning. Anthony's Bilingual Preschool firmly believes that every child has the capacity to learn how to act in a positive and respectful way. Additionally, Anthony's Bilingual Preschool espouses the idea that every child is unique and created in God's image and likeness. Every family possesses cultural values that Anthony's Bilingual Preschool takes into consideration and appreciates when caring for their children. The teachers at Anthony's Bilingual Preschool lead young children while keeping in mind age-appropriate standards of peer achievement.

Anthony's Bilingual Preschool believes that a well-organized environment is crucial for supporting the development and happiness of children. Such an environment allows for easier teacher observation and quick response times in addressing problematic situations. Anthony's Bilingual Preschool also keeps in mind that supporting the culture of the families it helps create a holistic learning environment that cultivates appreciation. Anthony's Bilingual Preschool seeks to sustain an ongoing process of professional communication. All facets of the program respond to and support families and children with disabilities and/or those who are disadvantaged in any way. Anthony's Bilingual Preschool has made specific efforts to include fathers, male caregivers, and supportive male family members in their parent involvement activities.

Anthony's main goal is to guide children to succeed in life and to become leaders who care for themselves and others. Anthony's philosophy is evidence-based and focuses on facilitating an age-appropriate play-based learning curriculum, setting up a nurturing environment, and providing culturally appropriate resources to young children and their families.
