Within a classroom culture of healing, nurturance, and love, and through the use of small and large group activities, children will grow in their ability to connect and make friends with others, calm and regulate their emotions, and grow in their self-esteem.

Parent Quotes:

"We've noticed improvements in our child's ability to talk about and regulate her emotions. I really feel like the small class size and high level of adult support was key in that growth."

"When we first enrolled, I understood that our child would be supported in the classroom, but I didn't expect to gain so much from our parent meetings. Having that time set aside to reflect on family goals and growth has really helped us."

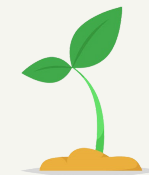

Reach Dane opened a therapeutic preschool classroom for 3 year-olds in the Fall of 2021. The goal of the classroom is to provide access to learning for children that have experienced trauma or other social inequities that may put them at risk of experiencing achievement gaps.

Family Engagement

Families are an essential part of the classroom team along with the classroom staff and the Child and Family Resilience Specialist.

Parents participate in the Your Journey Together resilience-building parenting curriculum. This program builds on the strengths of the family and provides simple, everyday ways to build parent relationships with their child and supports family well-being.

Our Program

ELIGIBLE CHILDREN

Children that meet the Federal requirements for Head Start AND have experienced trauma, extreme stressors, or other factors that parents or caregivers believe could put their child at risk for missing developmental learning outcomes.

CURRICULUM

The children will gain social emotional (ex. empathy, kindness) and problem-solving skills (ex. sharing, taking turns) in a play-based and age-appropriate environment. Each day the children will receive 2 meals and play outdoors (weather permitting).

CLASS SIZE

The classroom will have only up to 8 children enrolled. This is intentional so that children will receive many opportunities for learning and growth.

TRANSPORTATION

Bus transportation will be available within a designated area for qualified students.
